Kunal Chopde

Generative AI Developer | Agentic AI Engineer

Email: kunalchopde98@gmail.com
Phone: +9109711264
Location: Bhopal, India

Portfolio: portfolio-t6t7.vercel.app
GitHub: github.com/kunalsir98
LinkedIn: LinkedIn Profile

Professional Summary

Generative AI Developer with hands-on experience in Python-based AI applications, LLM integration, and API development. Skilled in LangChain, LangGraph, FastAPI, and Groq, with knowledge of Retrieval-Augmented Generation (RAG), tool calling, and agentic workflows. Experienced in developing AI-powered research workflows and integrating generative AI capabilities into backend applications. Interested in building practical AI solutions using modern LLM frameworks and open-source models.

Technical Skills

- **Programming:** Python, SQL
- **Generative AI & LLMs:** Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG), Embeddings, Vector Search, LLM API Integration, Tool Calling
- **AI Agent Frameworks:** LangChain, LangGraph, AutoGen, Agent Workflows, Tool Integration, Human-in-the-Loop
- **Models & AI APIs:** Groq API, Open-Source LLM Integration
- **Backend & Application Development:** FastAPI, Flask, Streamlit, REST APIs
- **Data Science & Machine Learning:** Pandas, NumPy, scikit-learn, Statistics, Machine Learning, Deep Learning
- **Databases, Tools & Deployment:** FAISS, MySQL, SQL Server, Git, GitHub, Docker, MLflow, Airflow

Experience

Qureal.ai Remote
Python Developer / Generative AI Developer *Jun 2025 – Aug 2025*

- **Generative AI Integration:** Developed a Python-based FastAPI endpoint integrating an AI image-generation model into an application workflow.
- **Backend API Development:** Implemented request handling and model API integration to expose image-generation functionality through a REST API.

iNeuron.ai Remote
Data Science Intern *Jun 2024 – Aug 2024*

- **Data Analysis:** Worked on data validation, exploratory analysis, and Python-based data processing to support data science workflows.
- **Workflow Automation:** Contributed to automating data preparation and analysis tasks for model development workflows.

Abstinent Research and Technology Bhopal, India
Database Developer Intern *Jul 2023 – Sep 2023*

- **Database Development:** Worked with Microsoft SQL Server and database operations, supporting data management and querying.
- **Data Integration and Reporting:** Gained practical exposure to SSIS, SSRS, SSAS, ETL concepts, and synthetic data generation.

Projects

- **AI Research Assistant | LangGraph, Groq, Tavily, Streamlit**
  - Developed an AI research assistant using LangGraph and Groq LLMs to answer queries through tool-calling workflows and web search.
  - Integrated Tavily Search and custom tools for calculations, percentage change, text analysis, and statistical operations.
  - Built a dark-themed Streamlit chat interface with conversation history and server-side API key configuration.
- **AI Research Agent with Human-in-the-Loop** GitHub
  - Built an AI research workflow using Python, LangGraph, Groq, Tavily Search, and Streamlit to research questions and synthesize information.
  - Integrated tool execution and conditional graph routing to coordinate LLM reasoning with external search and utility tools.
  - Implemented human-in-the-loop interruption and continuation workflows for user review and interaction.
- **Loan Approval Prediction System**
  - Built a machine learning workflow for loan approval prediction using Python and scikit-learn.
  - Developed a Flask application to expose model predictions through a web interface.

Education

LNCT Group of Colleges Bhopal, India

Master of Computer Applications (MCA) *2025 – Present*
LNCT University Bhopal, India
BBA in Business Intelligence & Analytics *2021 – 2024*

Certifications

- **Full Stack Data Science 2.0 – iNeuron.ai**
- **Database Developer Certification – Abstinent Research and Technology**
- **Python 101 for Data Science – IBM Cognitive Class**
- **Building Teams of AI Agents using AutoGen – Udemy**
